Subject Index, Volume 163

Abdominal sarcoma
Surgery for disseminated abdominal sarcoma; 560

Acute pancreatitis
Early surgical débridement of symptomatic pancreatic necrosis is beneficial irrespective of infection; 105
Influence of levamisole on pancreatic infection in acute pancreatitis; 100

Adenocarcinoma
Spectrum of cystic tumors of the pancreas; 117

Adjustable ties
Adjustable nylon ties for abdominal wall closure; 609

Advance directives
Advance directives, proxies, and the practice of surgery; 277
Editorial comment (E), 282

Ambulatory surgery
Editorial comment (E), 571
Efficacy of preadmission testing in ambulatory surgical patients; 565

Anal lesions
S-plasty for various anal lesions; 606

Anal sphincter-saving operations
Anal sphincter-saving operations for chronic ulcerative colitis; 5

Anastomosis
Factors affecting cervical anastomotic leak and stricture formation following esophagogastrectomy and gastric tube interposition; 484

Anastomotic leak stricture
Factors affecting cervical anastomotic leak and stricture formation following esophagogastrectomy and gastric tube interposition; 484

Arrhythmia
Continuing experience with the automatic implantable cardioverter defibrillator; 502

Arterial anatomy
Laparoscopic anatomy of the cystic artery; 593
Variant arterial anatomy in laparoscopic cholecystectomy; 590

Arterial chemoembolization
Primary treatment of hepatocellular carcinoma by arterial chemoembolization; 387

Arterial trauma
Pelvic abscess or pseudoaneurysm: diagnostic and therapeutic dilemma following iliac arterial trauma; 197

Arteriovenous malformations
Efficacy of intraoperative enteroscopy in diagnosis and prevention of recurrent occult gastrointestinal bleeding; 94

Ascites
Internal pancreatic fistula; 216

Aspiration
Esophageal manometry and 24-hour pH monitoring in the diagnosis of pulmonary aspiration secondary to gastroesophageal reflux; 401

Bacterial overgrowth
Untreated diabetes mellitus promotes intestinal microbial overgrowth; 417

Balloon catheter
A new technique of hepatectomy using an occlusion balloon catheter for the hepatic vein; 431

Balloon dilatation
Management of biliary complications after liver transplantation; 519

Bile diversion
Effect of duodenal switch procedure on gastric acid production, intragastric pH, gastric emptying, and gastrointestinal hormones; 37

Bile duct neoplasms
Choice of palliation for malignant hilar biliary obstruction; 208

Biliary calculi
Postoperative T-tube tract choledochoscopy; 28

Biliary leak
Management of biliary complications after liver transplantation; 519

Biliary obstruction
Choice of palliation for malignant hilar biliary obstruction; 208

Blood transfusion
Immunologic changes after blood transfusion in patients undergoing vascular surgery; 263

Breast cancer
Audit of mammography in a community setting; 544
Stratified diagnostic approach to fine needle aspiration of the breast; 305

Budd-Chiari syndrome
Treatment of Budd-Chiari syndrome due to inferior vena cava occlusion by combined portal and vena caval decompression; 137

Burns
Burn-induced transcriptional regulation of small intestinal ornithine decarboxylase; 157

Bursting pressure
Influence of the distance between interrupted sutures and the tension of sutures on the healing of experimental colonic anastomoses; 319

Carcinoid tumors
Effective palliative treatment of metastatic carcinoid tumors with intra-arterial chemotherapy/chemoembolization combined with octreotide acetate; 479

Carcinoma of the stomach
Implications of sustained suppression of gastric acid secretion; 613

Cardiac surgery
Changing perspective on gastrointestinal complications in patients undergoing cardiac surgery; 525

Carotid body tumor
Carotid body tumors; 494

Carotid stenosis
Neurologic deficits following noncarotid vascular surgery; 537

Chemoembolization
Effective palliative treatment of metastatic carcinoid tumors with intra-arterial chemotherapy/chemoembolization combined with octreotide acetate; 479

Chemotherapy
Effective palliative treatment of metastatic carcinoid tumors with intra-arterial chemotherapy/chemoembolization combined with octreotide acetate; 479
Postoperative chemotherapy for patients with advanced gastric cancer; 577

Cholangiography
Precholecystectomy endoscopic cholangiography and stone removal is not superior to cholecystectomy, cholangiography, and common duct exploration; 227

Choledocholithiasis
Laparoscopic transcystic common bile duct exploration; 53
Multipractice analysis of laparoscopic cholecystectomy in 1,983 patients; 221
Precholecystectomy endoscopic cholangiography and stone removal is not superior to cholecystectomy, cholangiography, and common duct exploration; 227

Cholelithiasis
Incorporation of laparoscopy into a surgical endoscopy training program; 46

Chronic obstructive pulmonary disease
Hypercarbia during carbon dioxide pneumoperitoneum; 186

Chronic pancreatitis
Groove pancreatitis masquerading as pancreatic carcinoma; 312

Circadian rhythm
Circadian rhythm in prostacyclin activity in gastric tissue of the fasting rat; 19

Cirrhosis
Indocyanine green clearance as a predictor of successful hepatic resection in cirrhotic patients; 515
Internal pancreatic fistula; 216

Closure
Adjustable nylon ties for abdominal wall closure; 609

Cold preservation
Beneficial effects of prewarming the donor liver for rat liver transplantation; 164

Colectomy
Results of colectomy in elderly patients with colon cancer, based on Medicare claims data; 572

Coloanal anastomosis
Results of intersphincteric resection of the rectum with direct coloanal anastomosis for rectal carcinoma; 407
Stapled coloanal anastomosis with reservoir procedure; 435

Colon cancers
Augmentation of the immune response of the murine liver by levamisole; 202
Endoscopic laser therapy for neoplastic lesions of the colorectum; 260
Results of colectomy in elderly patients with colon cancer, based on Medicare claims data; 572

Colon carcinoma
Protein C activity, stage of disease, and vascular thrombosis in colon carcinoma; 78

Colon trauma
Management of blunt and penetrating colon injuries; 547

Colonic motility
Morphine effects on human colonic myoelectric activity in the postoperative period; 144

Colonic pouch
Stapled coloanal anastomosis with reservoir procedure; 435

Colonoscopy
Can general surgeons perform colonoscopy safely?; 257

Colorectal cancers
Radiolabeled monoclonal antibody imaging (immunoscintigraphy) of colorectal cancers: current status and future perspectives; 448

Colorectal carcinoma
Editorial comment (E), 559
Extended resection for locally advanced colorectal carcinoma; 553

Common bile duct
Multipractice analysis of laparoscopic cholecystectomy in 1,983 patients; 221
Precholecystectomy endoscopic cholangiography and stone removal is not superior to cholecystectomy, cholangiography, and common duct exploration; 227
Risk management goals involving injury to the common bile duct during laparoscopic cholecystectomy; 551

Common bile duct exploration
Laparoscopic transcystic common bile duct exploration; 53

Congenital cystic adenomatoid malformation
Importance of fetal fluid imbalance in congenital cystic adenomatoid malformation of the lung; 510

Congo red testing
Prospective comparison of Congo red and sham feeding testing to determine vagal innervation of the stomach; 533

Corticosteroids
Effects of chronic corticosteroids and vitamin A on the healing of intestinal anastomoses; 71

Crural repair
Laparoscopic reduction, crural repair, and fundoplication of large hiatal hernia; 425

Cryptorchid testis
Fertility after simulated Fowler-Stephens orchiopexy in rats; 270

Cystadenocarcinoma
Spectrum of cystic tumors of the pancreas; 117

Cystadenoma
Spectrum of cystic tumors of the pancreas; 117

Cystic artery
Laparoscopic anatomy of the cystic artery; 593
Variant arterial anatomy in laparoscopic cholecystectomy; 590

Cystic metastases
Cystic metastases of the neck from occult thyroid adenocarcinoma; 298

Cytoprotection
Circadian rhythm in prostacyclin activity in gastric tissue of the fasting rat; 19
Do sensory neurons mediate adaptive cytoprotection of gastric mucosa against bile acid injury?; 12

Débridement
Early surgical débridement of symptomatic pancreatic necrosis is beneficial irrespective of infection; 105

Deep venous thrombosis
Protein C activity, stage of disease, and vascular thrombosis in colon carcinoma; 78

Defibrillator
Continuing experience with the automatic implantable cardioverter defibrillator; 502

Delayed gastric emptying
Does selective vagotomy prevent delayed gastric emptying and altered myoelectric activity following Roux-en-Y gastrojejunostomy?; 32

Des-γ-carboxy prothrombin
Relationship between pathologic prognostic factors and abnormal levels of des-γ-carboxy prothrombin and α-fetoprotein in hepatocellular carcinoma; 251

Diabetes mellitus
Untreated diabetes mellitus promotes intestinal microbial overgrowth; 417

Distant metastases
A predictive model for distant metastases in rectal cancer using DNA ploidy studies; 599

DNA ploidy
A predictive model for distant metastases in rectal cancer using DNA ploidy studies; 599

Duodenal switch procedure
Effect of duodenal switch procedure on gastric acid production, intragastric pH, gastric emptying, and gastrointestinal hormones; 37

Duodenogastric reflux
Effect of duodenal switch procedure on gastric acid production, intragastric pH, gastric emptying, and gastrointestinal hormones; 37

Editorials
Back to the future; 369
Editorial comment; 282, 317, 318, 380, 559, 571

Endoscopic retrograde cholangiopancreatography
An endoscopic retrograde cholangiopancreatography (ERCP)-based algorithm for the management of pancreatic pseudocysts; 111

Endoscopy
Endoscopic laser therapy for neoplastic lesions of the colorectum; 260
Incorporation of laparoscopy into a surgical endoscopy training program; 46
Surgical approach to occult gastrointestinal bleeding; 90

Enteroscopy
Efficacy of intraoperative enteroscopy in diagnosis and prevention of recurrent occult gastrointestinal bleeding; 94

Epidermal growth factor
Inhibition of DNA synthesis by somatostatin in rat hepatocytes stimulated by hepatocyte growth factor or epidermal growth factor; 169

Esophageal manometry
Esophageal manometry and 24-hour pH monitoring in the diagnosis of pulmonary aspiration secondary to gastroesophageal reflux; 401

Esophageal sphincter
Somatostatin stimulation of the normal esophagus; 59

Esophageal varices
Elective treatment of bleeding varices with the Sugiura operation over 10 years; 585

Esophagogastrectomy
Factors affecting cervical anastomotic leak and stricture formation following esophagogastrectomy and gastric tube interposition; 484

Esophagogastric anastomosis
Pulse oximetry for the assessment of gastric tube circulation in esophageal replacements; 446

Esophagus
Somatostatin stimulation of the normal esophagus; 59

Ethics
"Doctor, am I terminal?"; 460

Fecal incontinence
Total pelvic floor repair for the treatment of neuropathic fecal incontinence; 340

α-Fetoprotein
Relationship between pathologic prognostic factors and abnormal levels of des-γ-carboxy prothrombin and α-fetoprotein in hepatocellular carcinoma; 251

Fibroblast growth factor
Fibroblast growth factor reverses the bacterial retardation of wound contraction; 288

Flow cytometry
A predictive model for distant metastases in rectal cancer using DNA ploidy studies; 599

Fundoplication
Laparoscopic reduction, crural repair, and fundoplication of large hiatal hernia; 425

Gallbladder carcinoma
Subclinical gallbladder carcinoma; 382
Surgical treatment of primary carcinoma of the gallbladder based on the histologic analysis of 48 surgical specimens; 239

Gastric acid production
Effect of duodenal switch procedure on gastric acid production, intragastric pH, gastric emptying, and gastrointestinal hormones; 37

Gastric acidity
Effect of duodenal switch procedure on gastric acid production, intragastric pH, gastric emptying, and gastrointestinal hormones; 37

Gastric cancer
Postoperative chemotherapy for patients with advanced gastric cancer; 577

Gastric carcinoid
Implications of sustained suppression of gastric acid secretion; 613

Gastric carcinoma
Surgical results in patients with gastric carcinoma involving the mesocolon; 437

Gastric emptying
Effect of duodenal switch procedure on gastric acid production, intragastric pH, gastric emptying, and gastrointestinal hormones; 37

Gastric motility
Platelet activating factor-induced changes in gastric motility and vascular resistance; 23
Somatostatin stimulation of the normal esophagus; 59

Gastric restrictive surgery
Impact of gastric restrictive surgery on hypertension in the morbidly obese; 294

Gastric ulcer
Changing perspective on gastrointestinal complications in patients undergoing cardiac surgery; 525
Healing of gastric ulcer associated with paraesophageal hernia after hernial reduction; 443

Gastroesophageal reflux
Esophageal manometry and 24-hour pH monitoring in the diagnosis of pulmonary aspiration secondary to gastroesophageal reflux; 401

Gastroesophagostomy
Gastroesophageal physiology after stapled gastroesophagostomy in dogs; 581

Gastrointestinal hemorrhage
Efficacy of intraoperative enteroscopy in diagnosis and prevention of recurrent occult gastrointestinal bleeding; 94
Surgical approach to occult gastrointestinal bleeding; 90

Gastrointestinal hormones
Effect of duodenal switch procedure on gastric acid production, intragastric pH, gastric emptying, and gastrointestinal hormones; 37

Glucocorticoids
Effects of chronic corticosteroids and vitamin A on the healing of intestinal anastomoses; 71

Groove pancreatitis
Editorial comment (E), 317, 318
Groove pancreatitis masquerading as pancreatic carcinoma; 312

Gut hormones
Effect of sepsis or cytokine administration on release of gut peptides; 181

Health care
Where have the general surgeons (doctors) gone?; 2

Hemangiopericytoma
Current management and clinical outcome of hemangiopericytomas; 490

Hemostatic agents
Comparative efficacy of topical hemostatic agents in a rat kidney model; 234

Hepatic lesions
A new classification of hepatic territories using intraoperative ultrasound; 336

Hepatic neoplasms
Liver transplantation in malignant primary hepatic neoplasms; 395

Hepatic resection
A new technique of hepatectomy using an occlusion balloon catheter for the hepatic vein; 431
Hepatic resections for primary and metastatic tumors using the ultrasonic surgical dissector; 246
Indocyanine green clearance as a predictor of successful hepatic resection in cirrhotic patients; 515
Simplified hilar division in controlled right hepatectomy; 339
Technique of hepatic vascular exclusion for extensive liver resection; 602

Hepatic vein
A new classification of hepatic territories using intraoperative ultrasound; 336
A new technique of hepatectomy using an occlusion balloon catheter for the hepatic vein; 431

Hepatocellular carcinoma
Primary treatment of hepatocellular carcinoma by arterial chemoembolization; 387
Relationship between pathologic prognostic factors and abnormal levels of des-γ-carboxy prothrombin and α-fetoprotein in hepatocellular carcinoma; 251

Hepatocyte growth factor
Inhibition of DNA synthesis by somatostatin in rat hepatocytes stimulated by hepatocyte growth factor or epidermal growth factor; 169

Hepatocytes
Inhibition of DNA synthesis by somatostatin in rat hepatocytes stimulated by hepatocyte growth factor or epidermal growth factor; 169

Hernia
Healing of gastric ulcer associated with paraesophageal hernia after hernial reduction; 443
Hernia repair with expanded polytetrafluoroethylene; 422
Laparoscopic reduction, crural repair, and fundoplication of large hiatal hernia; 425

Hydramnios
Importance of fetal fluid imbalance in congenital cystic adenomatoid malformation of the lung; 510

Hydrops
Importance of fetal fluid imbalance in congenital cystic adenomatoid malformation of the lung; 510

Hypercarbia
Hypercarbia during carbon dioxide pneumoperitoneum; 186

Hypercoagulability
Evolution of our understanding of the pathophysiology of primary mesenteric venous thrombosis; 346

Hypercontractility
Platelet activating factor-induced changes in gastric motility and vascular resistance; 23

Hyperparathyroidism
The relationship between adenoma weight and intact (1-84) parathyroid hormone level in primary hyperparathyroidism; 301

Hypertension
Impact of gastric restrictive surgery on hypertension in the morbidly obese; 294

H_2-receptor antagonists
Implications of sustained suppression of gastric acid secretion; 613

Ileal pouch
Anal sphincter-saving operations for chronic ulcerative colitis; 5

Ileal pouch motility
Preservation of continence after ileoanal anastomosis by the coordination of ileal pouch and anal canal motor activity; 83

Ileal pouch-anal anastomosis
Preservation of continence after ileoanal anastomosis by the coordination of ileal pouch and anal canal motor activity; 83

Ileoanal anastomosis
Anal sphincter-saving operations for chronic ulcerative colitis; 5

Iliac artery
Pelvic abscess or pseudoaneurysm: diagnostic and therapeutic dilemma following iliac arterial trauma; 197

Iliopsoas abscess
Changing etiology of iliopsoas abscess; 413

Immune modulation
A randomized prospective clinical trial to determine the efficacy of interferon-γ in severely injured patients; 191
Augmentation of the immune response of the murine liver by levamisole; 202
Immunologic changes after blood transfusion in patients undergoing vascular surgery; 263

Immunoscintigraphy
Radiolabeled monoclonal antibody imaging (immunoscintigraphy) of colorectal cancers: current status and future perspectives; 448

Incontinence
Preservation of continence after ileoanal anastomosis by the coordination of ileal pouch and anal canal motor activity; 83

Indocyanine green
Indocyanine green clearance as a predictor of successful hepatic resection in cirrhotic patients; 515

Inguinal hernia
Sutureless repair of inguinal hernia; 331

Interferon-γ
A randomized prospective clinical trial to determine the efficacy of interferon-γ in severely injured patients; 191

Interleukin-1
Cytokine regulation of intestinal glutamine utilization; 174
Effect of sepsis or cytokine administration on release of gut peptides; 181

Intestinal anastomosis
Effects of chronic corticosteroids and vitamin A on the healing of intestinal anastomoses; 71
Influence of the distance between interrupted sutures and the tension of sutures on the healing of experimental colonic anastomoses; 319

Intestinal glutamine metabolism
Cytokine regulation of intestinal glutamine utilization; 174

Intestinal transport
Meal-induced jejunal absorption requires intact neural pathways; 150

Intragastric pH
Effect of duodenal switch procedure on gastric acid production, intragastric pH, gastric emptying, and gastrointestinal hormones; 37

Intraoperative endoscopy
Efficacy of intraoperative enteroscopy in diagnosis and prevention of recurrent occult gastrointestinal bleeding; 94

Iodine ablation
The efficacy of ^{131}I ablation following thyroidectomy in patients with invasive follicular thyroid cancer; 472

Ischemia
Neurologic deficits following noncarotid vascular surgery; 537
Platelet activating factor-induced changes in gastric motility and vascular resistance; 23

Jejunal absorption
Meal-induced jejunal absorption requires intact neural pathways; 150

Laparoscopic cholecystectomy
Incorporation of laparoscopy into a surgical endoscopy training program; 46
Laparoscopic anatomy of the cystic artery; 593
Laparoscopic transcystic common bile duct exploration; 53
Multipractice analysis of laparoscopic cholecystectomy in 1,983 patients; 221
Risk management goals involving injury to the common bile duct during laparoscopic cholecystectomy; 551
Variant arterial anatomy in laparoscopic cholecystectomy; 590

Laparoscopy
Hypercarbia during carbon dioxide pneumoperitoneum; 186
Incorporation of laparoscopy into a surgical endoscopy training program; 46
Laparoscopic reduction, crural repair, and fundoplication of large hiatal hernia; 425
Multipractice analysis of laparoscopic cholecystectomy in 1,983 patients; 221
Precholecystectomy endoscopic cholangiography and stone removal is not superior to cholecystectomy, cholangiography, and common duct exploration; 227

Levamisole
Augmentation of the immune response of the murine liver by levamisole; 202
Influence of levamisole on pancreatic infection in acute pancreatitis; 100

Litigation
Risk management goals involving injury to the common bile duct during laparoscopic cholecystectomy; 551

Liver disease
Treatment of Budd-Chiari syndrome due to inferior vena cava occlusion by combined portal and vena caval decompression; 137

Liver neoplasm
Hepatic resections for primary and metastatic tumors using the ultrasonic surgical dissector; 246

Liver resection
Primary treatment of hepatocellular carcinoma by arterial chemoembolization; 387

Liver transplantation
A selective approach to preexisting portal vein thrombosis in patients undergoing liver transplantation; 132
Beneficial effects of prewarming the donor liver for rat liver transplantation; 164
Liver transplantation in malignant primary hepatic neoplasms; 395
Management of biliary complications after liver transplantation; 519
Primary treatment of hepatocellular carcinoma by arterial chemoembolization; 387

Liver tumors
Technique of hepatic vascular exclusion for extensive liver resection; 602

Living wills
Advance directives, proxies, and the practice of surgery; 277
Editorial comment (E), 282

Lower esophageal sphincter
Gastroesophageal physiology after stapled gastroesophagostomy in dogs; 581

Malpractice
Risk management goals involving injury to the common bile duct during laparoscopic cholecystectomy; 551

Mammography
Audit of mammography in a community setting; 544

Manometry
Preservation of continence after ileoanal anastomosis by the coordination of ileal pouch and anal canal motor activity; 83

Mesocolon
Surgical results in patients with gastric carcinoma involving the mesocolon; 437

Metastases
Effective palliative treatment of metastatic carcinoid tumors with intra-arterial chemotherapy/chemoembolization combined with octreotide acetate; 479
Impact of cervical lymph node metastases from squamous cell cancer of the lip; 469

Mitral valve
Mitral valve reconstruction; 497

Mitral valve repair
Mitral valve reconstruction; 497

Mixed lymphocyte reaction
Immunologic changes after blood transfusion in patients undergoing vascular surgery; 263

Monoclonal antibodies
Radiolabeled monoclonal antibody imaging (immunoscintigraphy) of colorectal cancers: current status and future perspectives; 448

Monocyte HLA-DR expression
A randomized prospective clinical trial to determine the efficacy of interferon-γ in severely injured patients; 191

Morbid obesity
Impact of gastric restrictive surgery on hypertension in the morbidly obese; 294

Morphine
Morphine effects on human colonic myoelectric activity in the postoperative period; 144

Mucosal injury
Burn-induced transcriptional regulation of small intestinal ornithine decarboxylase; 157

Mycotic aneurysm
Pelvic abscess or pseudoaneurysm: diagnostic and therapeutic dilemma following iliac arterial trauma; 197

Myoelectric activity
Morphine effects on human colonic myoelectric activity in the postoperative period; 144

Needle aspiration
Stratified diagnostic approach to fine needle aspiration of the breast; 305

Needle biopsy
Stratified diagnostic approach to fine needle aspiration of the breast; 305

Neoplasms
Endoscopic laser therapy for neoplastic lesions of the colorectum; 260
Spectrum of cystic tumors of the pancreas; 117

Neurofibroma
Malignant schwannoma of the head and neck; 440

Octreotide
Improvement in survival of mice with proximal small bowel obstruction treated with octreotide; 231
Role of octreotide in the prevention of postoperative complications following pancreatic resection; 125
Somatostatin stimulation of the normal esophagus; 59

Octreotide acetate
Effective palliative treatment of metastatic carcinoid tumors with intra-arterial chemotherapy/chemoembolization combined with octreotide acetate; 479

Oral cancer
Impact of cervical lymph node metastases from squamous cell cancer of the lip; 469

Orchiopexy
Fertility after simulated Fowler-Stephens orchiopexy in rats; 270

Ornithine decarboxylase
Burn-induced transcriptional regulation of small intestinal ornithine decarboxylase; 157

Pancreas
Spectrum of cystic tumors of the pancreas; 117

Pancreatic abscess
Early surgical débridement of symptomatic pancreatic necrosis is beneficial irrespective of infection; 105

Pancreatic carcinoma
Editorial comment (E), 317, 318
Groove pancreatitis masquerading as pancreatic carcinoma; 312

Pancreatic fistula
Internal pancreatic fistula; 216
Is stenting necessary for a successful pancreatic anastomosis?; 530

Pancreatic necrosis
Early surgical débridement of symptomatic pancreatic necrosis is beneficial irrespective of infection; 105

Pancreatic pseudocysts
An endoscopic retrograde cholangiopancreatography (ERCP)-based algorithm for the management of pancreatic pseudocysts; 111

Pancreatic resection
Role of octreotide in the prevention of postoperative complications following pancreatic resection; 125

Pancreatic transplantation
Untreated diabetes mellitus promotes intestinal microbial overgrowth; 417

Pancreaticojejunostomy
Is stenting necessary for a successful pancreatic anastomosis?; 530

Pancreatoduodenectomy
Surgical treatment of primary carcinoma of the gallbladder based on the histologic analysis of 48 surgical specimens; 239

Parathyroid adenoma
The relationship between adenoma weight and intact (1-84) parathyroid hormone level in primary hyperparathyroidism; 301

Parathyroid cyst
Sclerotherapy for benign parathyroid cyst; 344

Parathyroid gland
Thyroid and parathyroid surgical complications; 476

Parathyroid hormone
Sclerotherapy for benign parathyroid cyst; 344
The relationship between adenoma weight and intact (1-84) parathyroid hormone level in primary hyperparathyroidism; 301

Pelvic abscess
Pelvic abscess or pseudoaneurysm: diagnostic and therapeutic dilemma following iliac arterial trauma; 197

Pelvic floor repair
Total pelvic floor repair for the treatment of neuropathic fecal incontinence; 340

Pelvic fracture
Open pelvic fracture: an injury for trauma centers; 283

Pelvic tumor
Sacral resection for control of pelvic tumors; 370

Peptic ulcer disease
Practical pharmacology and cost-effective management of peptic ulcer disease; 349

Pharmacology
Practical pharmacology and cost-effective management of peptic ulcer disease; 349

Pleural effusion
Internal pancreatic fistula; 216

Pneumoperitoneum
Hypercarbia during carbon dioxide pneumoperitoneum; 186

Polyps
Endoscopic laser therapy for neoplastic lesions of the colorectum; 260

Portacaval shunt
Postprandial augmentation of portal hepatic inflow after prosthetic H-graft portacaval shunt; 213

Portal hypertension
Elective treatment of bleeding varices with the Sugiura operation over 10 years; 585
Postprandial augmentation of portal hepatic inflow after prosthetic H-graft portacaval shunt; 213

Portal vein
A new classification of hepatic territories using intraoperative ultrasound; 336

Portal vein thrombosis
A selective approach to preexisting portal vein thrombosis in patients undergoing liver transplantation; 132

Portasystemic shunt
Treatment of Budd-Chiari syndrome due to inferior vena cava occlusion by combined portal and vena caval decompression; 137

Preoperative testing
Editorial comment (E), 571
Efficacy of preadmission testing in ambulatory surgical patients; 565

Prewarming
Beneficial effects of prewarming the donor liver for rat liver transplantation; 164

Prostacyclin
Circadian rhythm in prostacyclin activity in gastric tissue of the fasting rat; 19

Prostaglandins
Circadian rhythm in prostacyclin activity in gastric tissue of the fasting rat; 19
Do sensory neurons mediate adaptive cytoprotection of gastric mucosa against bile acid injury?; 12

Protein C
Protein C activity, stage of disease, and vascular thrombosis in colon carcinoma; 78

Pseudoaneurysm
Pelvic abscess or pseudoaneurysm: diagnostic and therapeutic dilemma following iliac arterial trauma; 197

Pulmonary cysts
Importance of fetal fluid imbalance in congenital cystic adenomatoid malformation of the lung; 510

Pulmonary embolism
Editorial comment (E), 380
Thrombolytic therapy for postoperative pulmonary embolism; 375

Pulse oximetry
Pulse oximetry for the assessment of gastric tube circulation in esophageal replacements; 446

Rectal cancer
A predictive model for distant metastases in rectal cancer using DNA ploidy studies; 599
Stapled coloanal anastomosis with reservoir procedure; 435
Technique and results of transanal endoscopic microsurgery in early rectal cancer; 63

Rectal carcinoma
Results of intersphincteric resection of the rectum with direct coloanal anastomosis for rectal carcinoma; 407

Rectal resection
Results of intersphincteric resection of the rectum with direct coloanal anastomosis for rectal carcinoma; 407
Stapled coloanal anastomosis with reservoir procedure; 435

Resident education
Back to the future (E), 369
Can general surgeons perform colonoscopy safely?; 257
Influence of spousal opinions on residency selection; 596

Resuscitation
Resuscitative thoracotomy performed in the operating room; 463

Roux-en-Y gastrojejunostomy
Does selective vagotomy prevent delayed gastric emptying and altered myoelectric activity following Roux-en-Y gastrojejunostomy?; 32

Sacrectomy
Sacral resection for control of pelvic tumors; 370

Schwannoma
Malignant schwannoma of the head and neck; 440

Sclerotherapy
Sclerotherapy for benign parathyroid cyst; 344

Screening
Audit of mammography in a community setting; 544

Selective vagotomy
Does selective vagotomy prevent delayed gastric emptying and altered myoelectric activity following Roux-en-Y gastrojejunostomy?; 32

Sensory neurons
Do sensory neurons mediate adaptive cytoprotection of gastric mucosa against bile acid injury?; 12

Sepsis
Effect of sepsis or cytokine administration on release of gut peptides; 181

Sham feeding testing
Prospective comparison of Congo red and sham feeding testing to determine vagal innervation of the stomach; 533

Small bowel obstruction
Improvement in survival of mice with proximal small bowel obstruction treated with octreotide; 231

Small intestinal hemorrhage
Efficacy of intraoperative enteroscopy in diagnosis and prevention of recurrent occult gastrointestinal bleeding; 94

Small intestine
Surgical approach to occult gastrointestinal bleeding; 90

Society for Surgery of the Alimentary Tract
Where have the general surgeons (doctors) gone?; 2

Somatostatin
Effective palliative treatment of metastatic carcinoid tumors with intra-arterial chemotherapy/chemoembolization combined with octreotide acetate; 479
Improvement in survival of mice with proximal small bowel obstruction treated with octreotide; 231
Inhibition of DNA synthesis by somatostatin in rat hepatocytes stimulated by hepatocyte growth factor or epidermal growth factor; 169
Somatostatin stimulation of the normal esophagus; 59

Somatostatin analogue
Role of octreotide in the prevention of postoperative complications following pancreatic resection; 125

Squamous cell cancer
Impact of cervical lymph node metastases from squamous cell cancer of the lip; 469

Stents
Is stenting necessary for a successful pancreatic anastomosis?; 530
Management of biliary complications after liver transplantation; 519

Stricture
Management of biliary complications after liver transplantation; 519

Stroke
Neurologic deficits following noncarotid vascular surgery; 537

Sugiura operation
Elective treatment of bleeding varices with the Sugiura operation over 10 years; 585

Sutureless repair
Sutureless repair of inguinal hernia; 331

Sutures
Adjustable nylon ties for abdominal wall closure; 609
Influence of the distance between interrupted sutures and the tension of sutures on the healing of experimental colonic anastomoses; 319

T lymphocytes
Immunologic changes after blood transfusion in patients undergoing vascular surgery; 263

T-tube tract choledochoscopy
Postoperative T-tube tract choledochoscopy; 28

Tachycardia
Continuing experience with the automatic implantable cardioverter defibrillator; 502

Terminal illness
"Doctor, am I terminal?"; 460

Thoracotomy
Resuscitative thoracotomy performed in the operating room; 463
